

Pre-Event Hazard Checklist

The Pre-Event Hazard Checklist is a mandatory document to be completed on the day of the event.

City of Monash has an expectation of all event organisers to provide a safe environment for those attending events within the municipality.

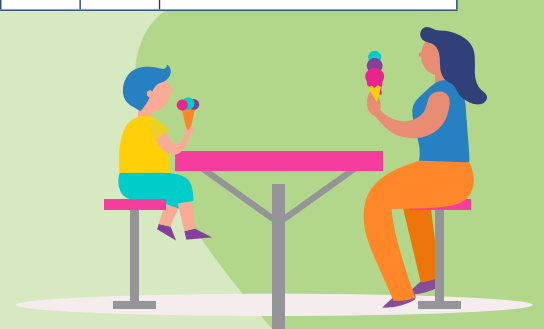

The checklist below has been developed as a basic assessment of risks that should be considered to eliminate or minimise potential hazards at an event. Given the nature of the event you are organising, some of the controls in this checklist will not be relevant and others may require more detail than given here.

This checklist, Event Plan and Risk Assessment should work together to effectively manage and mitigate identified risks.

Name of Event

Date of Event

Activity/task/hazard	Yes	No	N/A	Additional Controls
