Proposed Tree Species Options

Option 1 – Combination of species

<i>Tristaniopsis laurina</i> 'Luscious' (Luscious Kanooka)	
<p><u>Power line side</u></p> 	<p>An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark, which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters throughout summer.</p> <p>Mature Size (height x spread): 8m x 4m Form: Oval</p>
<i>Lophostemon confertus</i> (Queensland Brush Box)	
<p><u>Non-power line side</u></p> 	<p>This is a fast growing tree. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.</p> <p>Mature Size (height x spread): 10m x 15m Form: Oval</p>

Street Tree Renewal Information – Catherine Avenue, MOUNT WAVERLEY

Option 2 – Single species (both sides of the road)

<i>Eucalyptus leucoxylon</i> 'Eukie Dwarf' ('Eukie Dwarf')	
	<p>This shapely dwarf Eucalypt has a light, open canopy with a single trunk and smooth bark that sheds. Its grey-green leaves once mature are offset by masses of nectar rich, pink, red and sometimes cream blossoms from late autumn to early summer, attracting native birds to the garden.</p> <p>Mature Size (height x spread): 6-8m x 4-6m Form: Round</p>

Option 3 – Single species (both sides of the road)

<i>Brachychiton populneus x acerifolius</i> 'Bella Pink' (Bella Pink Brachychiton)	
	<p>This is a small to medium sized shade tree offering glossy green foliage and pretty clusters of salmon pink, bell-shaped flowers in summer. Flowers are bird attracting.</p> <p>Mature Size (height x spread): 8m x 4m Form: Broad-domed</p>
