

Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
9	2 Esperance Road	Tree to be removed	No replacement tree to be planted	<i>Callistemon salignus</i>	Larger Callistemon and canopy overshadowing has impacted good form. Vigour is also reduced with sooty mould impacts.	
10	3 Esperance Road	Tree to be removed	Replacement tree to be planted	<i>Callistemon viminalis</i>	Decay in main stem – Vigour <70%.	
11	9 Esperance Road	Tree to be removed	Replacement tree to be planted	<i>Hakea salicifolia</i>	<70%foliage vigour and density.	

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
12	17 Esperance Road	Tree to be removed	Replacement tree to be planted	<i>Callistemon viminalis</i>	<80% foliage vigour and density. Old wound and some decay at the tree base.	

Infill Planting Locations

The table below lists the details of the locations where trees will be planted in currently vacant sites along Esperance Road, Mount Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	4 Esperance Road	Vacant Site	New tree to be planted
2	12 Esperance Road	Vacant Site	New tree to be planted
3	13 Esperance Road	Vacant Site	New tree to be planted
4	13 Esperance Road	Vacant Site	New tree to be planted
5	5 Florida Street (In Esperance Road)	Vacant Site	New tree to be planted
6	5 Florida Street (In Esperance Road)	Vacant Site	New tree to be planted
7	5 Florida Street (In Esperance Road)	Vacant Site	New tree to be planted

Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Combination of species planted in an alternating pattern on both sides of the road

<i>Eucalyptus leucoxylon</i> ‘Eukie Dwarf’ (Dwarf Yellow Gum)	
	<p>This shapely dwarf Eucalypt has a light, open canopy with a single trunk and smooth bark that sheds. Its grey-green leaves once mature are offset by masses of nectar rich, pink, red and sometimes cream blossoms, from late autumn to early summer, attracting native birds to the garden.</p>
	<p>Mature Size</p> <p>Height x Width (m): 6-8m x 4-6m</p> <p>Form: Round</p>

<i>Eucalyptus pauciflora</i> 'Little Snowman'	
	<p>A small, evergreen, open canopy tree which has white blooms appearing in spring through to summer. The bark of this tree is smooth and streaked grey, brown or golden tan over a cream under bark.</p>
	<p>Mature Size</p> <p>Height x Width (m): 4-7m x 3-6m</p> <p>Form: Round</p>

Option 2 – Combination of species planted in an alternating pattern on both sides of the road

<i>Brachychiton populneus x acerifolius 'Jerilderie Red'</i>	
	<p>This is an attractive densely canopied tree that grows to approximately 8m tall and 7m wide. It has a bloated trunk and large lobed leaves. During the summer months, the tree is densely packed with stunning powdery-red flowers that are shaped like small bells.</p>
<p>Mature Size</p> <p>Height x Width (m): 8m x 7m</p> <p>Form: Broad domed</p>	

<i>Corymbia citriodora 'Scentuous' (Dwarf Scented Lemon Gum)</i>	
	<p>This is a slightly narrow domed tree that doesn't shed its branches. It has a smooth trunk that may be slightly mottled. Leaves are narrow and highly aromatic when crushed, smelling strongly of lemon. This tree features lovely cream-coloured flowers in summer.</p>
<p>Mature Size</p> <p>Height x Width (m): 7m x 3m</p> <p>Form: Oval</p>	

Option 3 – Combination of species

Power line side of road

<i>Cercis canadensis</i> 'Forest Pansy' (Forest Pansy Redbud)	
	<p>This small, attractive tree has spectacular heart-shaped, burgundy-coloured leaves that continually change colour throughout the year. A rich purple in spring, the foliage transforms to green over summer, followed by a multi-coloured autumn display in tones of red, apricot and gold. The branches have a distinctive, smooth, dark brown wood which contrasts well with the blossom-like pink flowers that are born before the re-emergence of leaves in spring.</p>
Mature Size	
Height x Width (m):	5-7m x 5-7m
Form:	V Shape

Non-power line side of road

<i>Acer truncatum</i> x <i>platanooides</i> 'Taggart Sunset' (Truncatum Hybrid Maple)	
	<p>This very attractive small to medium-sized Maple has glossy, dark green, sharply lobed leaves, which change to a multitude of yellows, oranges and reds in autumn. Moderately fast growing, it is known to perform well in trying conditions. Flowers in late spring.</p>
Mature Size	
Height x Width (m):	12-15m x 10m
Form:	Upright
