

## Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*Useful Life Expectancy <2 Years)	Tree Image
31	2 Hilda Court	Tree to be removed	No replacement tree to be planted	<i>Acer palmatum</i>	Significant decay in the three primary branches	

### Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Hilda Court, Mount Waverley. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	9 Bailey Street (In Hilda Court)	Vacant Site	New tree to be planted

# Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

## Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

## Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

### Option 1 – Single species (both sides of the road)

<i>Tristaniopsis laurina</i> ‘Luscious’ (Luscious Kanooka)	
	<p>An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.</p>
	<p><b>Mature Size</b></p> <p><b>Height x Width (m):</b> 8m x 4m</p> <p><b>Form:</b> Oval</p>
	

**Option 2 – Single species (both sides of the road)**

***Callistemon viminalis (Weeping Bottle Brush)***

This is a pretty, bird-attracting tree with a heavy crown due to the profusion of brilliant red flowers in spring and summer. It is the weight of these flowers that gives it a pendulous habit.

<b>Mature Size</b>	
<b>Height x Width (m):</b>	6-8m x 6-8m
<b>Form:</b>	Round

**Option 3 – Single species (both sides of the road)**

***Lagerstroemia indica x fauriei 'Kiowa' (Kiowa Japanese Crepe Myrtle)***

This crape myrtle is known for its white flowers, rich deep green leaves, and wonderful cinnamon brown bark. It also has good cold resistance. Mid to late summer flowers range from pink, white, red or lavender.

<b>Mature Size</b>	
<b>Height x Width (m):</b>	4m x 3m
<b>Form:</b>	Upright/Round
