

## Tree Removals

The table below lists the details of the trees to be removed, including tree location, tree species and condition assessment. For further location details, please refer to the street map outlining all removals, replacements and infill planting. Alternatively, each tree has had a reference tag attached and these tags will correspond to the reference number below for on-site identification.

Ref No.	Street Address	Assessment Outcome	Follow Up Action	Current Tree Species	Tree Condition Assessment (*ULE <2 Years)	Tree Image
88	1/21 Howleys Road	Tree to be removed	Replacement tree to be planted	<i>Callistemon salignus</i>	Poor vigour. 30% canopy dieback. Phellinus infection.	
89	56 Howleys Road	Tree to be removed	Replacement tree to be planted	<i>Callistemon salignus</i>	Tree in decline. Some Phellinus infection.	
90	93-97 Normanby Road	Tree to be removed	Replacement tree to be planted	<i>Callistemon salignus</i>	Old trunk damage. Some decay.	

## Infill Planting Location

The table below lists the details of the locations where trees will be planted in currently vacant sites along Howleys Road, Notting Hill. For further location details, please refer to the street map outlining all removals, replacements and infill planting.

No.	Street Address	Assessment Outcome	Follow Up Action
1	7 Howleys Road	Vacant Site	New tree to be planted
2	9 Howleys Road	Vacant Site	New tree to be planted
3	9 Howleys Road	Vacant Site	New tree to be planted
4	15 Howleys Road	Vacant Site	New tree to be planted
5	20-24 Howleys Road	Vacant Site	New tree to be planted
6	21 Howleys Road	Vacant Site	New tree to be planted
7	25 Howleys Road	Vacant Site	New tree to be planted
8	31-37 Howleys Road	Vacant Site	New tree to be planted
9	31-37 Howleys Road	Vacant Site	New tree to be planted
10	32-38 Howleys Road	Vacant Site	New tree to be planted
11	39-45 Howleys Road	Vacant Site	New tree to be planted
12	40-48 Howleys Road	Vacant Site	New tree to be planted
13	40-48 Howleys Road	Vacant Site	New tree to be planted
14	40-48 Howleys Road	Vacant Site	New tree to be planted
15	40-48 Howleys Road	Vacant Site	New tree to be planted
16	47 Howleys Road	Vacant Site	New tree to be planted

17	56 Howleys Road	Vacant Site	New tree to be planted
18	56 Howleys Road	Vacant Site	New tree to be planted
19	93-97 Normanby Road	Vacant Site	New tree to be planted
20	350 Ferntree Gully Road	Vacant Site	New tree to be planted
21	352-368 Ferntree Gully Road	Vacant Site	New tree to be planted
22	352-368 Ferntree Gully Road	Vacant Site	New tree to be planted
23	352-368 Ferntree Gully Road	Vacant Site	New tree to be planted

# Street Overview

The map below details the removals, replacements and infill plantings. All other trees have been assessed as having more than two years' useful life and will be retained.

## Street Overview Legend

-  Tree to be Removed and Replaced
-  New Tree
-  Tree Removed with No Replacement

## Proposed Tree Species Options

Council’s Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

### Option 1 – Single species (both sides of the road)

<i>Tristaniopsis laurina</i> ‘Luscious’ (Luscious Kanooka)	
	An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.
	<b>Mature Size</b>
	<b>Height x Width (m):</b> 8m x 4 m
	<b>Form:</b> Oval

Option 2 – Single species (both sides of the road)

<i>Lagerstroemia indica</i> x <i>L. fauriei</i> 'Sioux' (Sioux Upright Crepe Myrtle)	
	<p>Creating quite the visual impact over a lengthy period, this variety offers masses of intense, pink flowers over summer, followed by stunning, rich foliage colour in tones of yellow, red and orange through autumn, before shedding its leaves. When mature, the bark of this variety will peel, creating a mottled effect to reveal the beautiful caramel-pink colour of its under bark.</p>
	<p><b>Mature Size</b></p> <p><b>Height x Width (m):</b> 5m x 4 m</p> <p><b>Form:</b> Round</p>

**Option 3 – Single species (both sides of the road)**

<b>Eucalyptus pauciflora 'Little Snowman'</b>	
	<p>A small, evergreen, open canopy tree which has white blooms appearing in spring through to summer. The bark of this tree is smooth and streaked grey, brown or golden-tan over a cream under bark.</p>
<p><b>Mature Size</b></p> <p><b>Height x Width (m):</b>      4-7m x 3-6m</p> <p><b>Form:</b>                              Round</p>
