WHY IMMUNISE?

Immunisation is a very important, proven and safe way to provide protection against serious diseases. It also protects those who may be unable to receive immunisation themselves. Monash Council visits secondary schools throughout the year to immunise Year 7 and Year 10 school students as part of the National Immunisation Program Schedule (NIP). Non-Medicare card holders are eligible for these free vaccines.

The Secondary School Immunisation Program offers FREE vaccines for the following diseases to all students:

YEAR 7
12-13 YEARS

YEAR 10
14-16 YEARS

Human Papillomavirus (HPV)

Diphtheria, Tetanus, Pertussis (DTP)

Meningococcal ACWY

1 dose (HPV)

Children with a weakened immune system may still require a second or third dose.

If missed catch-up dose is available up to (and including) 25 years of age

1 Booster dose (Boostrix)

1 Booster dose (Nimenrix)
