Privacy Statement

Monash City Council ("Council") collects personal information via this form to process your Skip Bin Supplier Accreditation and related purposes which the individual to whom the information relates may reasonably expect. Council will not release or provide access to personal information to any other person or body, unless (a) it has been authorised to do so by the person to whom the information relates, (b) it is permitted or required to do so by law, or (c) it is appropriate or required in the performance of the functions of Council. If you refuse to supply the requested information we may not be able to process your request. You may gain access to your personal information by contacting Council's Information Privacy Officer via email at legal@monash.vic.gov.au.

CONDITIONS OF PLACEMENT OF "SKIP" TYPE BINS ON ROAD RESERVES

Definition

A "Skip" type bin is any type of steel bin of one (1) cubic metre or greater capacity excluding a trailer, which requires a vehicle to convey it from location to location.

Application

Each application for placement of a "Skip" type bin within the road reserve of the Monash City Council shall be made by direct contact with the responsible officer stating the property address, bin owner's name, address and telephone numbers, proposed location of bin, dates during which bin is to be placed, details of current insurance cover for bin. Permits will only be issued to the legal bin owners and he/she will become the permit holder.

Permit Fee

A fee (specified by Council resolution) is required to be paid for the issue of a permit to cover costs involved with on location Council inspections and administration tasks. Accounts will be forwarded monthly for all permits issued to the permit holder. Non-payment of accounts within the specified terms will result in the withdrawal of these arrangements and refusal of the issue of further permits.

Security Deposit

A security deposit of \$100.00 may be required to be lodged with Council prior to the issue of a permit as guarantee against damage to Council assets on the road reserve by the owner or hirer of the bin.

Costs of Reinstatement

Where damage has been caused to the roadway or other service assets within the road reserve by the placement, usage or collection of the bin, the permit holder is to reinstate the area to the satisfaction of Council. Should an area be identified as requiring reinstatement following the placement of a skip bin, Council will notify and

give to the permit holder a statement of the costs of such reinstatement. Council will hold the permit holder liable under the Local Law for the costs of reinstatement of the area.

Validity of Permit

Permits shall be valid until the stated expiry date or longer by agreement in writing.

Location of Bin

Bins wherever possible are to be located entirely within the nature strip adjacent to the hirer's residence. Bins are to be so located as not to obstruct access to drainage pits, fire plugs, water valves, Telecom pits, etc. Bins are to be located not less than 9 metres from the corner apex of the kerb and channel.

Public Protection

Bins are not to contain any sharp edges or corners, loose doors or metal pieces which may be dangerous to the public. The permit holder is to remain responsible for the lighting or illumination of the bin at night. Where the bin is located on the roadway, at least two flashing battery operated lamps are to be affixed to the outer edge of the bin and maintained in an operating condition.

Reflective tape and company name and telephone number are to be visible at all times.

Insurance

(i) Permit holder is to maintain a current public liability insurance policy for at least \$20,000,000 on the bin for the duration of its location in the municipality.

(ii) The permit holder will indemnify and hold harmless Monash City Council against liability for all claims, actions, and suits howsoever arising from the issue of this permit and the negligent acts of the permit holder during the life of the permit or the location of any object on Council under this permit.

Responsibility

The permit holder will remain responsible for the bin for the duration of its location in the municipality.

Rights of Removal

Council retains the right to remove and impound such bins where the permit holder has not within forty-eight hours responded to a notice to make the positioning of such bins safe or when the permit holder does not remove the bin on expiry of the permit period. If impounded, the bin would be released upon payment of all costs of impounding the bin.
