

MONASH PUBLIC ROADS CHANGE REGISTER

The City of Monash Public Road Register has been prepared in accordance with Section 17 and Schedule 1 of the Road Management Act 2004 and is a register of those roads which Council has decided are reasonably required for public use.

Changes to the road network within the municipality, including changes to road reserve boundaries or road hierarchy as well as additions and removals since the first implementation of the Public Road Register (1 July 2004), are included in this Monash Public Road Change Register.

Some changes initiated before 1/7/2004 are included for clarity.

Instruments beginning PS refer to Plans of Subdivision followed by the registration number. Instruments beginning GG refer to a decision by Council and implemented by publication in the Victorian Government Gazette followed by the issue number and date. By Delegation refers to decisions made by Council Officers under delegation such as changes to road hierarchy category.

ISSUED BY:	COORDINATOR STRATEGIC ASSET MANAGEMENT	ISSUE DATE:	31 July 2021
