Tree Removed with No Replacement

Proposed Tree Species Options

Council's Street Tree Strategy team has created three (3) options to choose from using the most appropriate species for the location.

Option 1 – Combination of species

Power line side of road

Tristaniopsis laurina (Luscious Kanooka)

An Australian native. Leaves are dark green, shiny and large. New growth starts in a distinctive copper colour and further interest appears over time with the branches developing deep purple coloured bark which peels back to reveal a smooth, cream trunk. Flowers are yellow and sweetly perfumed, appearing in clusters through summer.

Mature Size

Height x Width (m): 8 x 4 m

Form: Oval

Non-power line side of road

Brachychiton populneus x acerifolius 'Bella Pink' (Bella Pink Hybrid Brachychiton)

This is a small to medium-sized shade native tree offering glossy green foliage and pretty clusters of salmon pink, bell-shaped flowers in summer. The flowers attract birds.

Mature Size

Height x Width (m): 8 x 4 m

Form: Broad domed

Option 2 – Single species (both sides of the road)

Lagerstroemia indica x L. fauriei 'Sioux' (Sioux Upright Crepe Myrtle)

Creating quite the visual impact over a lengthy period, this variety offers masses of intense, pink flowers over summer, followed by stunning, rich foliage colour in tones of yellow, red and orange through autumn, before shedding its leaves. When mature, the bark of this variety will peel, creating a mottled effect to reveal the beautiful caramel-pink colour of its under bark.

Mature Size

Height x Width (m): 5m x 4 m

Form: Round

Option 3 – Combination of species

Power line side of road

Pyrus fauriei 'Westwood' Korean Sun (Korean Sun Pear)

This is a compact ornamental pear tree with a dense growth habit. It has a glossy green foliage that changes to bright tones of red and orange in autumn. Flowering seems to occur quite early in spring.

Mature Size

Height x Width (m): 4m x 6m

Form: Oval

Non-power line side of road

Pyrus calleryana x P. betulaefolia 'Edgewood' (Upright Callery Pear)

A lovely ornamental pear that has a good spring floral display and attractive mid-green summer foliage that changes to reds and purples in autumn.

Mature Size

Height x Width (m): $8 - 10 \times 6 - 8 \text{ m}$

Form: Upright
