Regional Commitments

Councils will cooperate regionally and take local actions that align with the intent and the principles of this Charter.

The 13 Councils commit to:

1. Working in partnership with federal and state government, public and private sector partners to coordinate our approach and deliver meaningful outcomes to increase the provision of social housing and respond to homelessness in south and east Melbourne
2. Scoping land within each LGA that has the potential to be re-purposed for adaptable housing needs, and to share these insights on a regional scale with the intention of identifying suitable sites for the development of social housing
3. Advocating together for inclusive housing growth including mandatory inclusionary zoning.

Context

Victoria has a homelessness and housing affordability crisis, made more acute by COVID-19 and the 2019/20 bushfires. A collaborative effort across all tiers of government and partners is required: one that embeds a 'Housing First'* approach aligned to the fundamental principle that housing solves homelessness.

The Council to Homeless Persons (CHP) recommends that the **most powerful action local governments can take** to reduce homelessness is to support the delivery of homes that people can afford. For the lowest income households most vulnerable to homelessness, this means the provision of social housing.^{1**}

The housing 'bottleneck' keeps individuals and

families trapped in homelessness and suffering negative health outcomes and trauma.

To leverage the collective strengths of regional partnerships, the City of Monash brought together 13 councils in Melbourne's east and south east to set a regional agenda. The 13 councils represent more than 2 million residents and are united in striving for an improved homelessness policy-setting and service sector.

These **councils seek systemic change** to increase the supply of permanent, safe, appropriate and timely housing for the most vulnerable members of our community and to embed 'Housing First' as a key foundational principle, fundamental for health, recovery and safety.

In Victoria 44,152 households are waiting for social housing.² In south east and east Melbourne, the situation is dire as **32%** of Victorians experiencing homelessness and **40%** of people on the social housing waiting list live in this region.³

Whitehorse

* The Housing First model is a strategic response to homelessness that prioritises permanent and stable housing for people experiencing homelessness (Australian Housing and Urban Research Institute, 2018)

** Social housing refers to housing owned either by state government or by not-for-profit community housing providers that is rented to low income households at either 25% (public housing) or 30% (community housing) of household income. Social housing does not generally include crisis or rooming houses.
